## Student Nurse Externship Summer 2022

*"The strongest points of the extern program were it allowed me to become much more confident in my nursing skills. It allowed me to be able to interact with patients on a daily basis. It gave me more experience in how to truly care for a patient while working alongside a trained RN preceptor."*

*"My preceptor allowed me to learn by teaching what is expected and then allowed me to perform the skill. She gave me constructive criticism which helped me to improve my clinical skills in a nonthreatening environment."*

*"The best part of the program was the opportunity to observe in other clinical areas. I was able to go to the Cath Lab for a heart cath procedure, Surgery to see a total knee replacement, Labor and Delivery, and other areas within the hospital setting. If there was a trained preceptor, I was able to perform some of my clinical skills."*

- Nine Week Program: May 26-July 29
- \$12.60/hour
- 320 hours required (clinical and observation)
- Assigned to RN Preceptor
