

SUMMER 2022 Forrest General Nurse Extern Program

DEPARTMENTS FOR PLACEMENT

- Medical Surgical
- Intensive Care Unit
- Post-Partum
- Emergency Department
- Telemetry
- Labor and Delivery

We expect placement to be limited and very competitive.

Any senior-level nursing student can participate in the Nurse Extern Program but must be enrolled in the Summer Nurse Extern Course offered by a School of Nursing program approved to participate. Our program will begin 5/23/2022 and will end 7/29/2022. The program requires 320 hours with **no overtime**.

Nurse Externs work the same shift as their preceptor and may only perform skills that have been validated by their Schools of Nursing. The Nurse Extern will have a paper checklist from the schools validating skills.

An exclusion skills checklist should be with the extern, preceptor, and posted in the unit. These skills CANNOT be performed by the Nurse Extern.

For more information, contact Naomi Bridgers at Naomi.Bridgers@forrestgeneral.com or visit www.forrestgeneral.com/externprogram.
